

This pamphlet contains statistical information for Shorewood Public Library. All statistics are for the year 2016. The library cooperates with the Wisconsin Department of Public Instruction (DPI) and, in turn, the Institute of Museum and Library Services (IMLS), which develops and compiles national public library statistics for the United States. Shorewood Public Library provides this information so that policymakers, funders, trustees, and librarians can identify trends in the country's library services.

Performance indicators are included for their potential application to library services planning and usefulness as general indicators of library service. Further information on survey methodology and the application of these statistics may be found through DPI's website at [pld.dpi.wi.gov/pld\\_dm-lib-stat](http://pld.dpi.wi.gov/pld_dm-lib-stat).
